IONOSPHERIC REFRACTION IN RADIOASTRONOMY.

Trans. of Czechoslovakian language article from
an unidentified source, n. d.

DESCRIPTORS: *Radio astronomy, *Ionosphere,
*Refraction, *Atmospheric refraction.

With the increasing precision of the methods of radio-
astronomy, it will soon be necessary to consider
seriously the influence of ionospheric refraction. On
the basis of rocket soundings, the calculations and
results relative to ionospheric refraction are demon-
strated. The parabolic model of the ionosphere is not
suitable for calculations of refraction. (Author)

An analysis of chain motion in chain drives shows why
this motion is non-uniform, and makes it possible to
compute the dynamic forces which are involved in the
motion. Non-uniformity of chain motion can be sup-
pressed by means of a compensation drive, whose cam
form can be determined easily.
